504 North Main Street is an east-facing, two-and-a-half-story, two brick, freestanding, American Four Square residential structure. It is almost identical to 422 North Main. The building is set near the public-right-of-way. The red brick is laid in black mortar in flemish bond with black, glazed headers. A two-story, octagonal bay with a pyramidal roof is located in the southwest corner of the house. The clipped, hipped roof is covered with artificial shingles and has wide eaves and one chimney at the center. There is a hipped-roof dormer facing the street. A porch wraps around the facade and south elevation, its supports have been obscured by vegetation. The entrance has a door with beveled glass. The jack arched windows are double-hung, vertical five-over-one sash.

The building is within the Western Maryland Geographic Organization, the Development Period of Industrial/Urban Dominance, and falls within the Historic Period Theme of Architecture, Landscape Architecture, and Community Planning.
